

**This document shows how to solve the issue of Internet Explorer 11 not showing scroll bars in an SRM display of a purchase order or shopping cart when the zoom level is set higher than 100.**

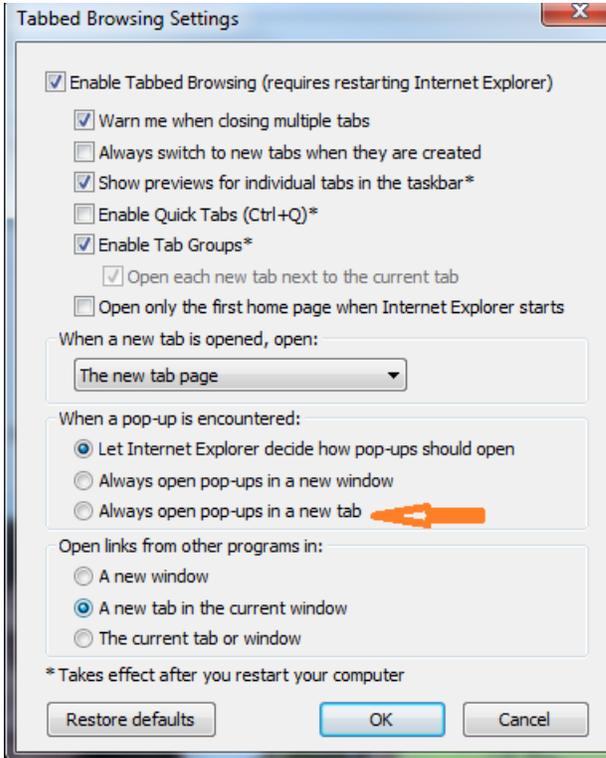

With your Internet Explorer opened to any page choose the gear icon and then Internet Options in the upper right corner of your Internet Explorer Window.

Select Tabs as shown below:

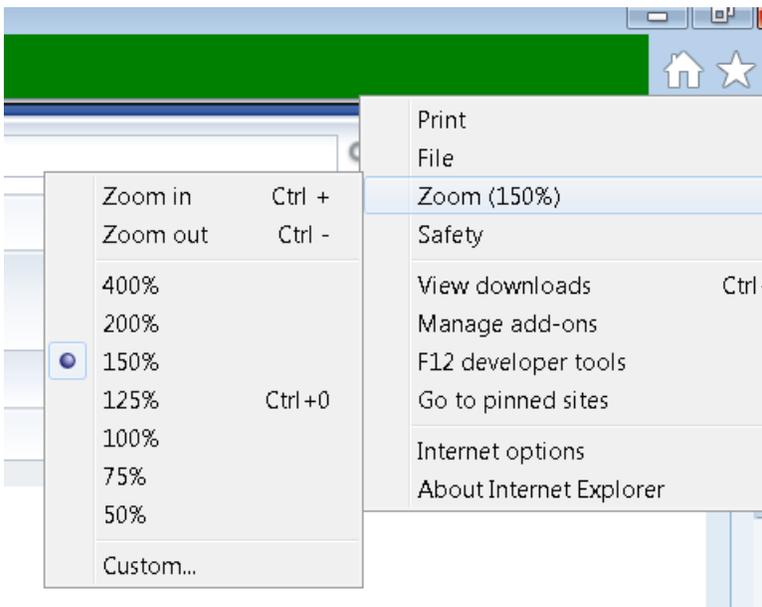

Select Always open popups in a new tab:

Select Ok and then close all of your Internet Explorer Sessions

Now when you display a purchase order or a shopping cart you will have scroll bars showing if your zoom level is over 100.
