

## **FUELING STATION**

When purchasing fuel at any vendor that accepts the WEX card, driver must use self-service pumps and purchase regular, unleaded fuel unless the owner's manual recommends otherwise.

If the vehicle is in the Harrisburg Area, it is recommended that you use the DGS fueling site located at 2221 Forster Street, Harrisburg, PA. These pumps accept the WEX card and are available 24/7. The prices at DGS pump tend to be less than those at a commercial vendor since the Commonwealth purchases fuel in bulk it can provide it to government agencies at a lower price.

The following information requires driver input at the pump:

Current odometer reading

Driver ID # or PIN #

Contact your agency's auto liaison for information regarding what items are available for purchase on the WEX card.
