Agencies will exercise a scoring method based upon the criteria set forth in the RFQ. The Scoring Methods are defined as follows:

- Best Value
 - Refers to the process of selecting the quote which provides the greatest value to the agency based on evaluating and comparing all pertinent criteria, including cost, so that the Supplier whose overall proposal best suits the agency's needs is selected for each project; and
- Low Cost

- Refers to the lowest cost quoted from all proposals received that are deemed both responsive and responsible for the project.
