

Diesel - The Reeds Gap Office uses our diesel tank for two purposes: 1) Fueling a dump truck and 4 tractor. 2) Heating fuel for the office.

I tried to break down our usage by vehicles vs heat. However, I'm finding that not to be possible. Before I arrived on 5/2017, the diesel gauge was broken for 1.5 years. There is no record of how much diesel was used for vehicles. That said, approx. usage would be:

- Summer months ~ 90% vehicles.
- Winter months would be ~90% heat.
- Spring and Fall would be ~50/50.

If you have questions please feel free to call and discuss.

**Sent:** Thursday, January 11, 2018 2:36 PM  
**To:** Bruce, Joshua <[josbruce@pa.gov](mailto:josbruce@pa.gov)>  
**Subject:** GESA Information

Both attachments have KSB1 for Jan 1, 2016 thru Dec 31, 2017, breakdown per month, and the invoices coinciding with the KSB1.

For the Diesel, 12/5/16 we had to have the tank drained as far as we could to remove algae and other sediment that was causing problems with our equipment operating inefficiently. Due to the extreme scope of work completed, we had a total delivery of 905.9 gallons delivered that day with additives for the algae issue and of course, winter.

The reason we have no vehicle usage information in several of the months is due to the pump and meter display not working. Region had been made aware of the situation, but due to the cost of the job of replacement pumps, etc. it waited until a project was allocated to us.
