Commonwealth of Pennsylvania Critical Medical Supplies Procurement Portal

Pennsylvania needs critical medical supplies.

To fulfill this need, the departments of Community and Economic Development, Health, General Services, and the Pennsylvania Emergency Management Agency have developed the Commonwealth of Pennsylvania Critical Medical Supplies Procurement Portal (the “Portal”) to source the most needed medical supplies.

The Portal is for manufacturers, distributors and other suppliers to inform us of supplies available for purchase and will allow us to more quickly and efficiently procure these supplies for hospitals and medical facilities across Pennsylvania.
